Market Analysis

Promising financing demand and scale among crypto projects

In 2021, a total of 1,812 financing events were recorded in the global blockchain industry, while 1,433 events, valued at \$48.674 billion, were publicly disclosed with specific statistics.

Besides, events like ICO, IDO, IEO, and ITO were not counted.

Financing Platforms Sought by the Funds

With new projects springing up and the demand for investment running high among investors, tokens from financing platforms are sought by the funds.

Ranking	Platforms	Tokens	Market Value	30-day Rise	This year's Rise
248	Bounce	\$ BOT	300 million	431.80%	371.50%
136	Polkastarter	\$ POLS	1.5 billion	203.50%	510.40%
265	DuckDAO	\$ DDIM	510 million	76.40%	312.40%
514	Poolz	\$ Poolz	79.06 million	104.20%	309.70%
328	Ignition	\$ PAID	360 million		635.80%
282	Dao Maker	\$ Dao	460 million		198.60%

Note: Data was taken in April 2022

Analysis of Some Investing and Financing Platforms

Platforms	Types	Public Blockchains	Moderation Via	Need KYC or not	Investment Amount	Eligibility	Speed	Difficulty
Coinlist	ICO	Centralized	Platform	Yes	fixed limit	to be chosen by lot	Slow	Simple
Raydium	IDO	SOL	Platform	No	lot-winning limit	drawing lots through pledged tokens	Slow	Difficult
dexlab.space	IDO	SOL	Platform	No	lot-winning limit	Ranking system & white list	Moderate	Difficult
impossible.finance	IDO	BSC	Platform	Yes	distributed by the number of pledged tokens	Subscription through pledged tokens	Moderate	Complicated
Avalaunch.app	IDO	AVAX	Platform	Yes	lot-winning limit	Subscription through pledged tokens	Fast	Complicated
PolkaStarter	IDO/INO	EVM (Multiple Blockchains)	Governance Committee	No	lot-winning limit	White list & holding a position	Fast	Complicated
DuckSTARTER	IDO	ETH/BSC/DOT/Polygon	Platform	No	membership level	White list & holding a position	Moderate	Complicated
Dao Maker	IDO	ETH/BSC	Platform	Yes	100-500u	White list & holding a position	Fast	Complicated
solstarter.org	IDO	SOL	Platform	No	average distribution	White list	Moderate	Complicated
solanium.io	IDO	SOL	Platform	No	distributed by the number of pledged tokens	Subscription through pledged tokens	Fast	Complicated
nftb.io	IDO/INO	BSC	Platform	No	membership level	Level of pledged tokens	Fast	Complicated

Pain points of Investing/ Financing Platforms' Market

Costly Admittance

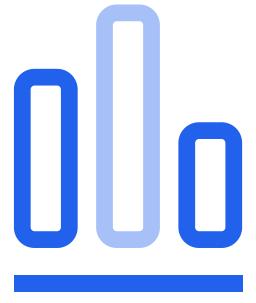

High threshold Guided by funds, institutions, exchanges

Be unsure of fairness for retail investors

High Threshold for Financing

Searching for VC financing and centralized exchanges, project managers are faced with high entry standards and costs.

Good and Bad Projects are jumbling together

Good and bad IDO projects are jumbling together

Specialized evaluation and finding mechanisms are lacking among retail investors, who are faced with high risks.

Ambiguous Financing

How project managers use the funds cannot be traced , Cooperation with financing platforms is not transparent

Complicated Lot-Winning Mechanism

Lot-winning mechanisms are complicated among IDO platforms, which impedes the understanding and participation of users.

A Lack of Community Recognition

Recognition is lacking among the public, an unattractive scenario for retail investors

02

Project Introduction

veDAO

is committed to providing a transparent and easy-to-access platform for all financiers, investors, and community attendants through democratic voting. With veDAO, all the participants will share the benefits of the project and benefit from the top-level project in the future.

Core Characteristics

Democratic autonomy

An investing/financing platform of the people and by the people

Fairness and transparency

People are able to apply for financing, with voters managing through blockchain voting.

Management through smart contracts

Decentralized operation through smart contracts

Brainstorming

To draw on the wisdom of the masses

About Our Project

Mission

To build up an open and transparent investing/financing market with multiple blockchains and without entrusting or permission.

To build up a specialized, effective, cooperative, and self-governing community.

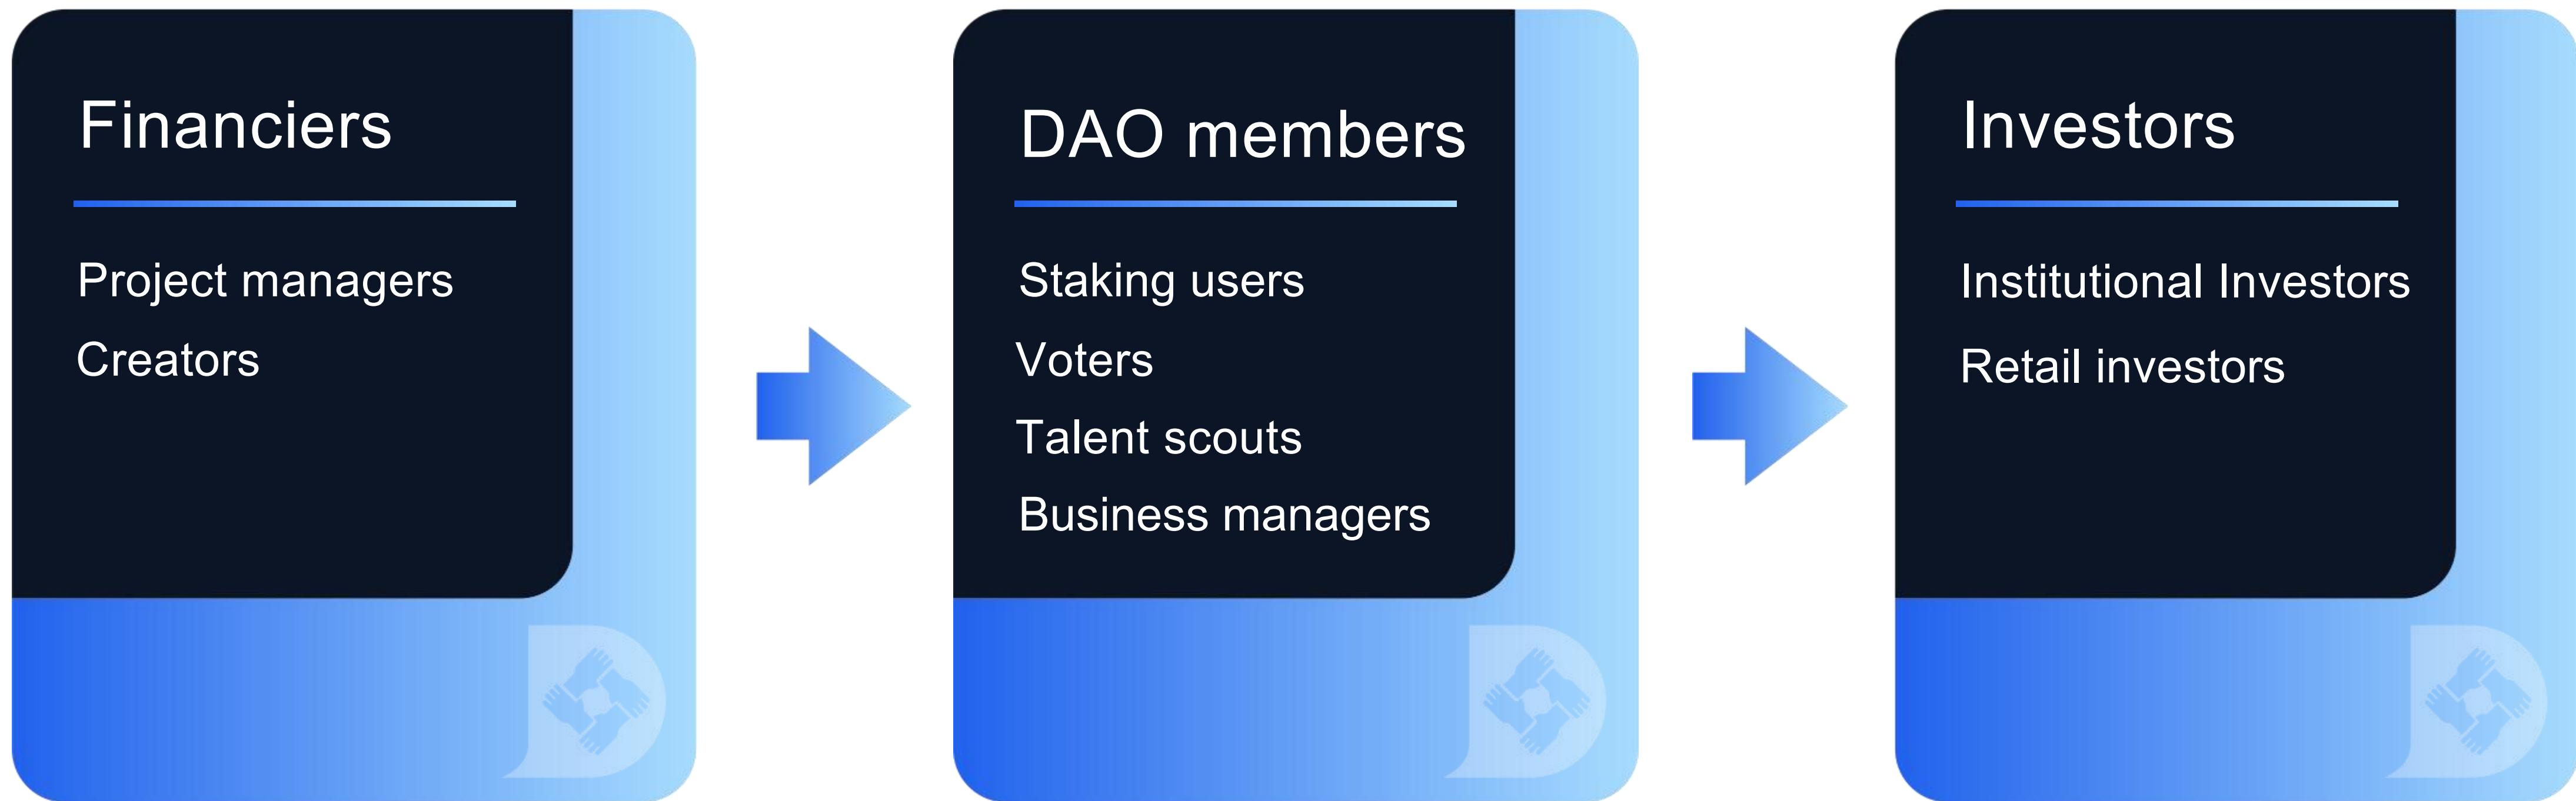

Vision

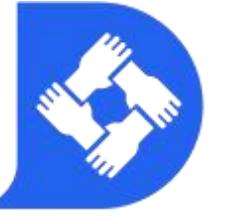

To build up an easy-to-access investing/financing platform with fairness and low entry standards, and to build up the source of top-level projects.

About Our Project

Platform

Operation Model

DAO Governance

The fundraising of projects is decided by the veDAO community governance.

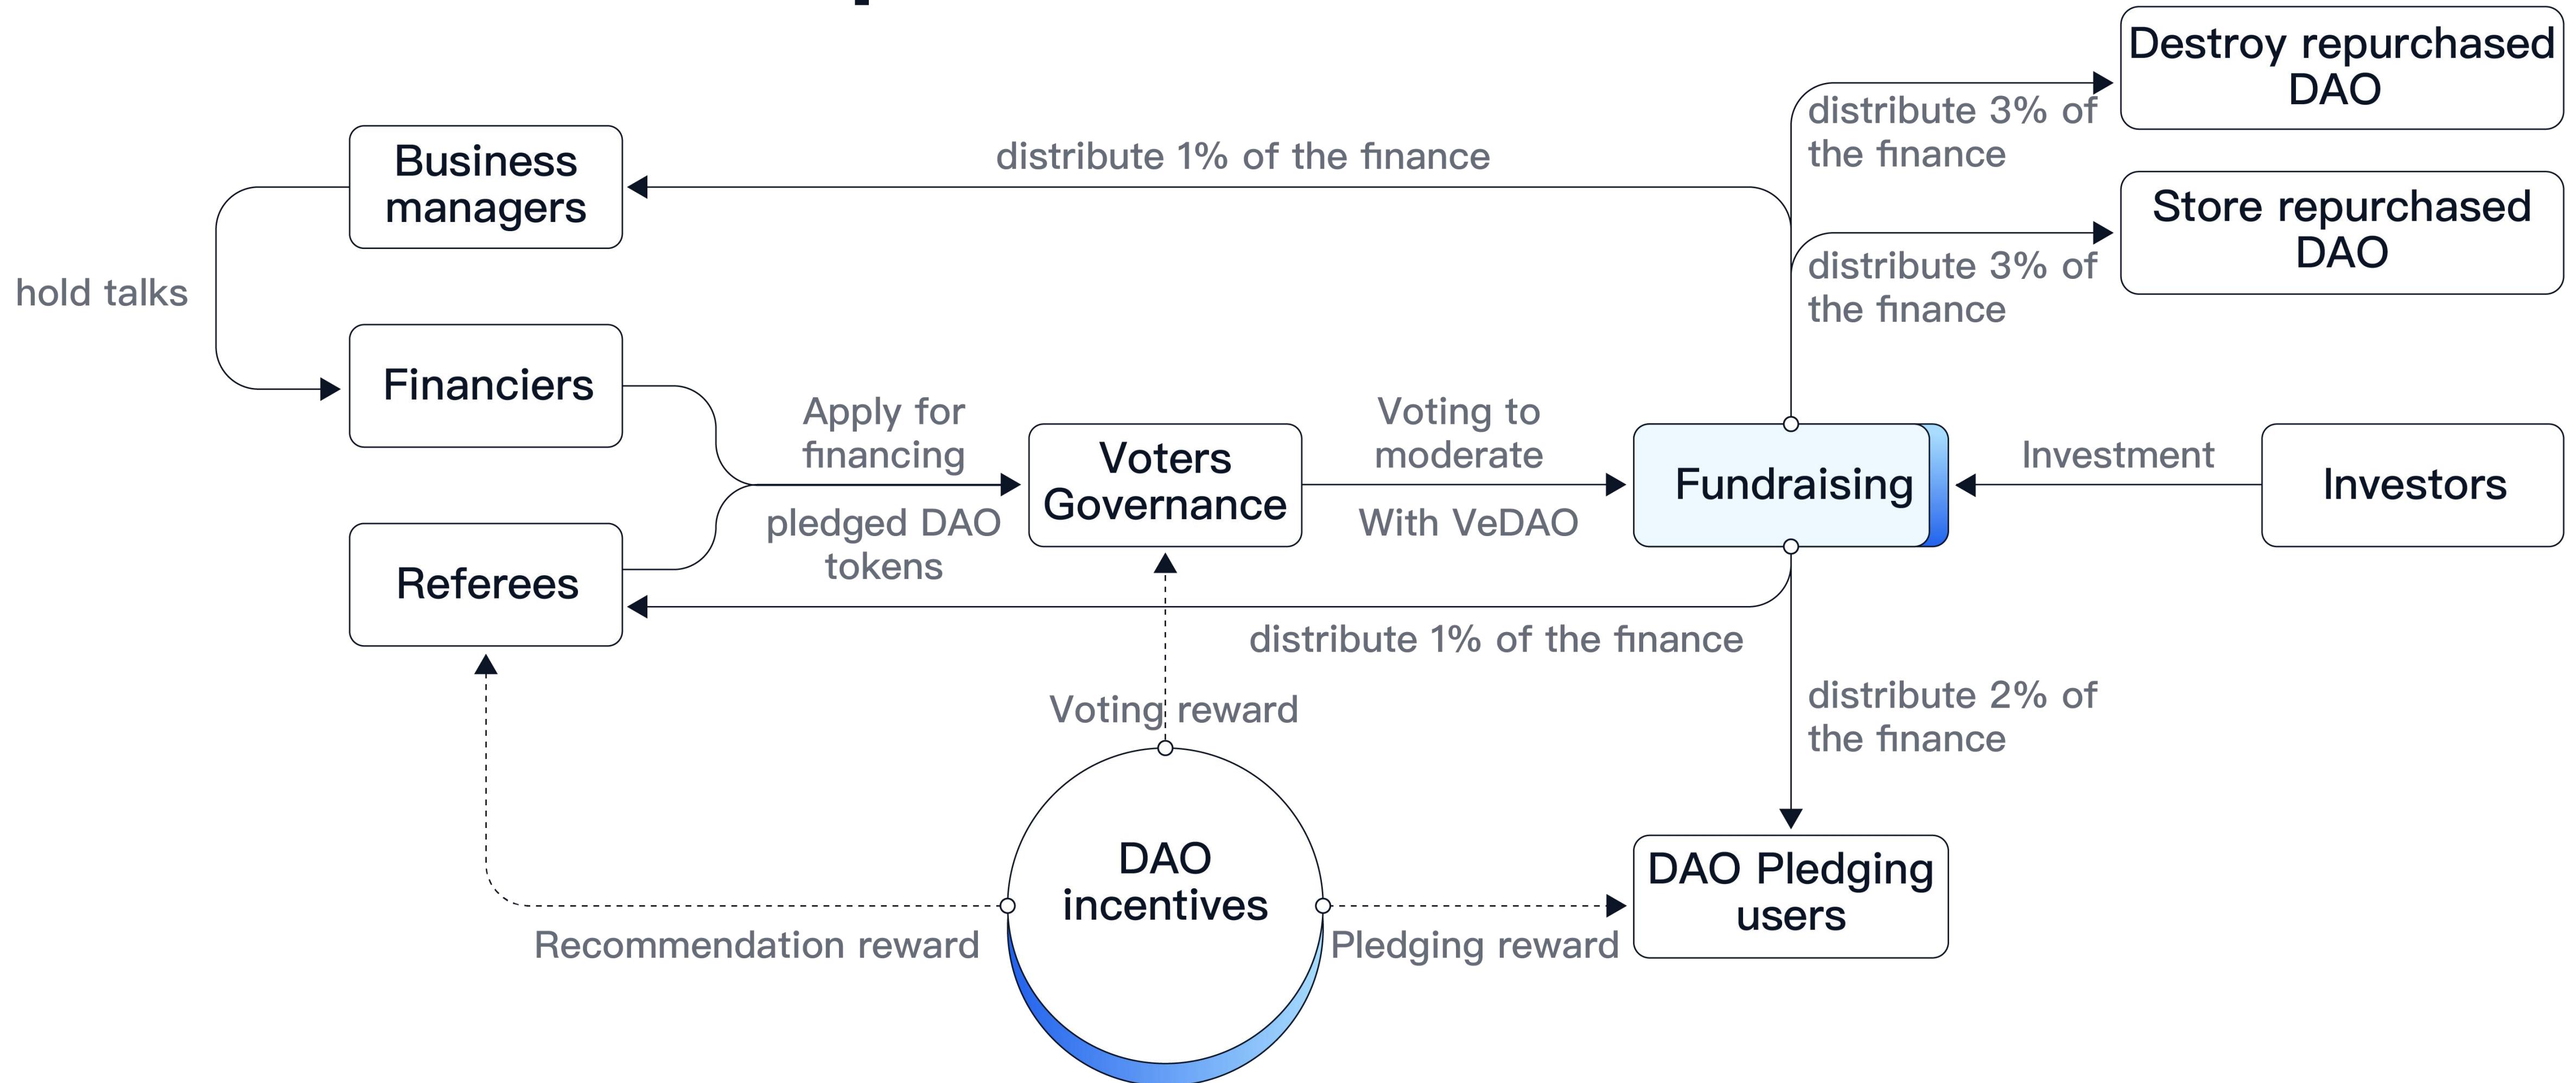

Decentralized Contracts

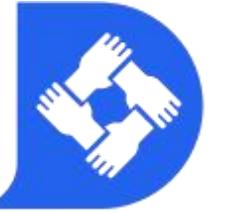

Voting, fundraising, token distribution, and distribution of income are completed through decentralized contracts.

Operation Mechanism

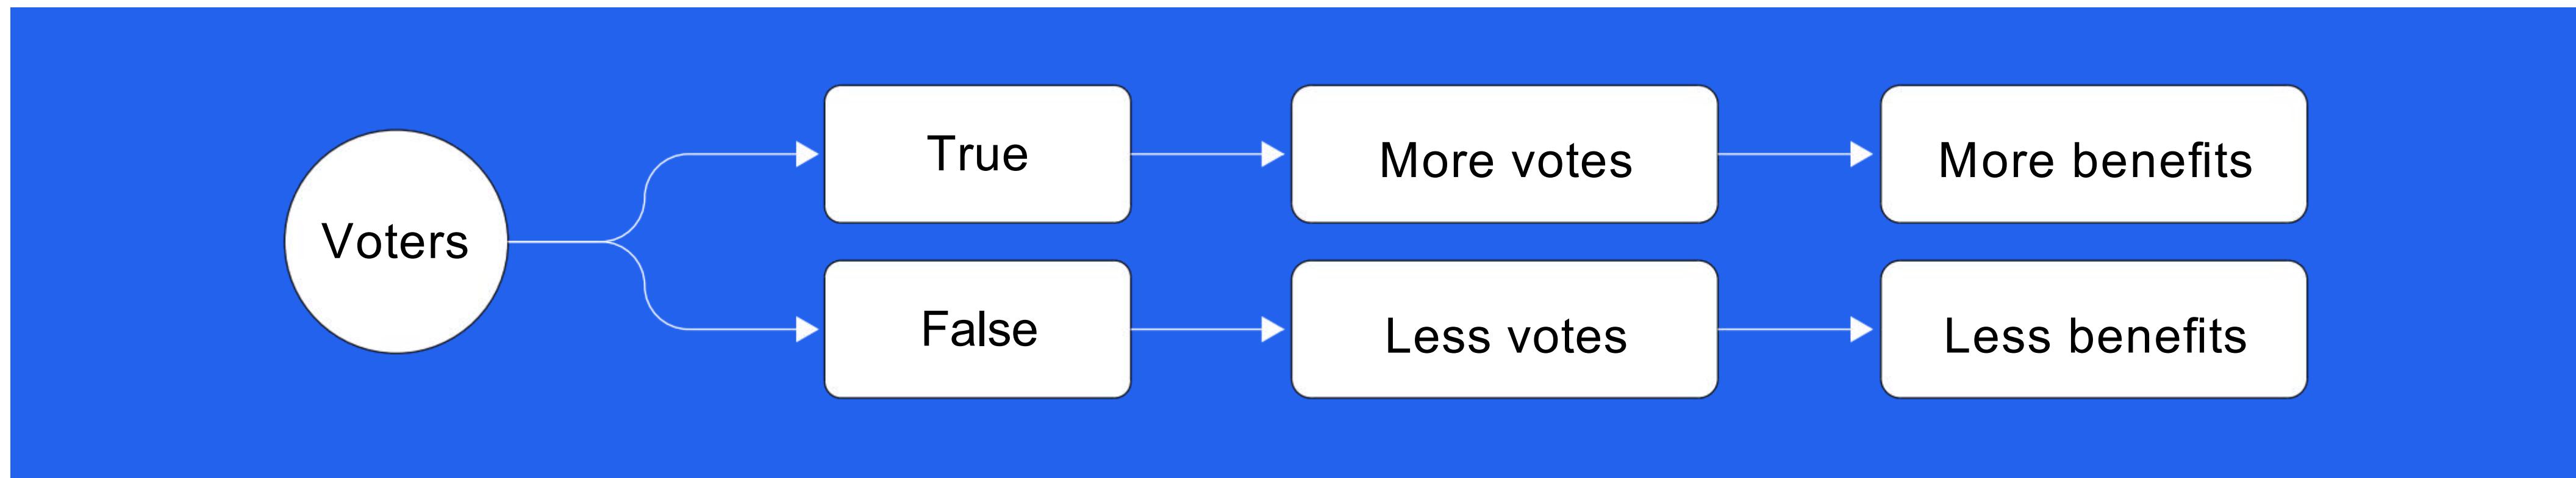

How to ensure an effective operation of voting governance?

Mechanism concerning rewards and disciplinary sanctions:

Help elites stand out to get more governance benefits

How to judge?

- If the application of financing fails, affirmative voters will be considered false.
- If the application of financing is passed, successful fundraising should surpass 70% of the expected amount of the fundraising. For this scenario, affirmative voters will be considered as true, and vice versa.

Lot-winning mechanism

Goal: to enable more people to gain access to a fair investment amount

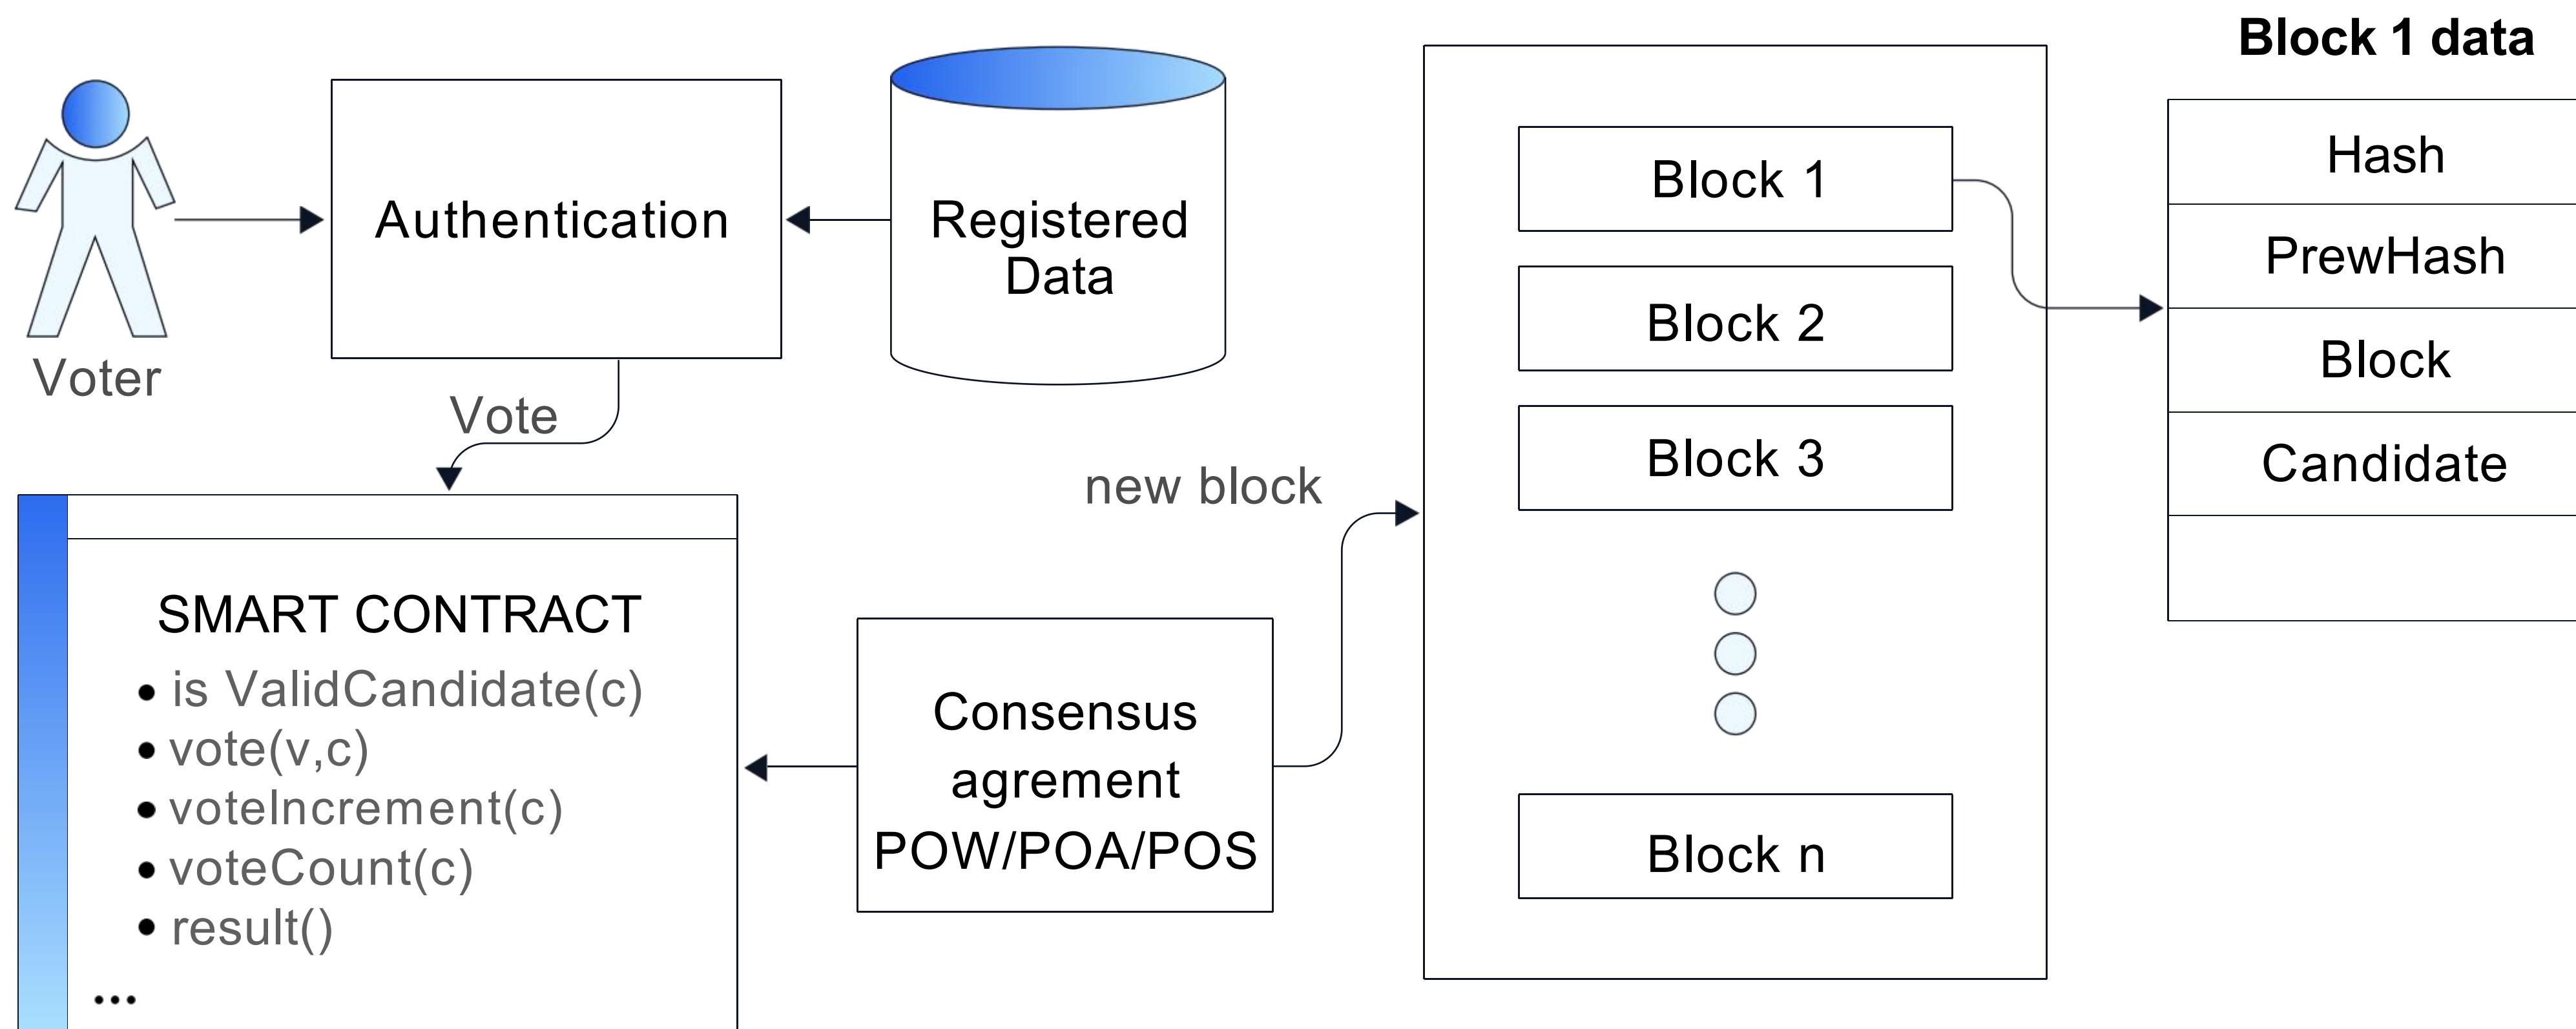

Distribution of investment amount

- When the number of participants is smaller than that of selling board lots, everyone will win a lot at least.
- When the number of participants is bigger than that of selling board lots, more veDAO and funds will bring more lots.

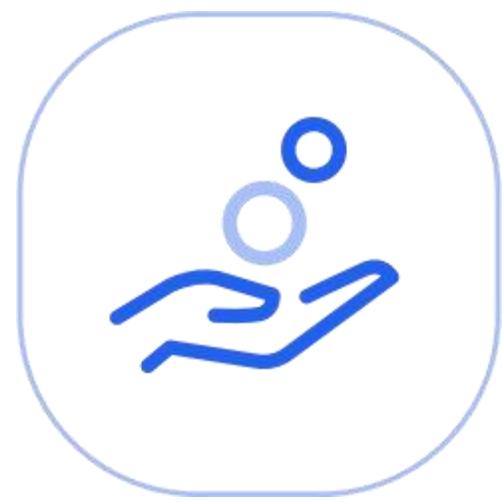

No counterfeit or falsified voting

- Wallet addresses will be allowed to access while voting.
- The voting result will be uploaded to the blockchain and decentralizedly stored. That means there is no possibility of falsifying.

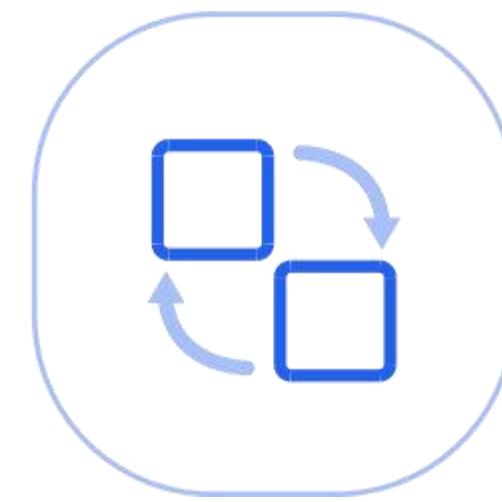

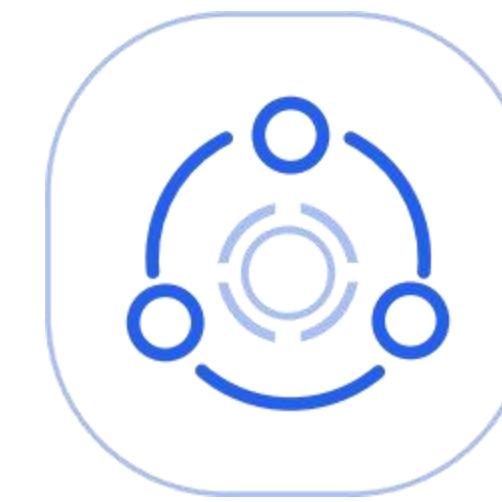

Standouts

Non-entrusted
funds

Decentralized
Operation

Self-governing
DAO

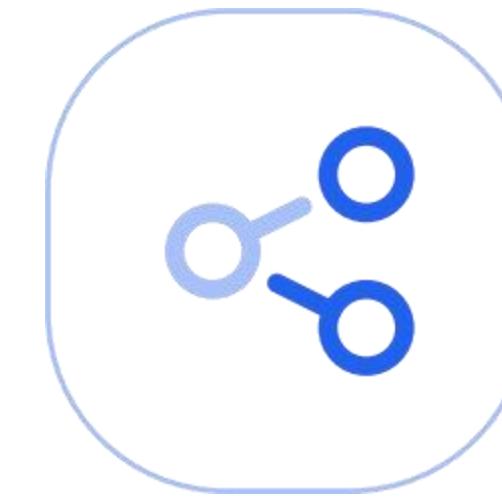

Brainstorming

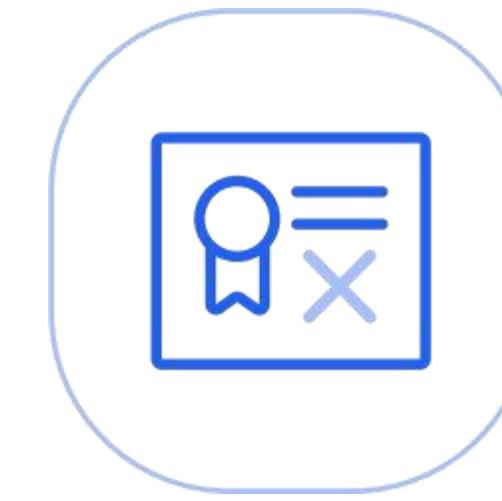

Huge
community

Fair
distribution

Multiple
blockchains

Without
permission or KYC

Why veDAO?

for Financiers

veDAO boasts a wide variety of fair fundraising measures and a huge user group, cooperating with multiple top-level agencies. You will get strong support for financing, brands, and traffic flow.

- Convenient application: without permission or KYC/KYB
- Flexible participation: user-defined price and amount of investment
- Versatile veDAO: white list & installment
- Various financing measures: IDO, INO, among others

for Investors

veDAO will help investors find projects with potential and maximize the value of an investment through a fair distribution system.

- More choices: multi-party resources will provide top-level projects.
- Specialized suggestions: experts and institutional investors will participate in the review with the support of industry-leading policy-makers
- A common understanding of the community: to get the real feedback through voting

Why veDAO?

DAO members

veDAO enables the DAO members to maximize their advantages through decentralized democratic governance, thus gaining a fair benefit distribution.

Users governing the community :

- Voting: all the pledging users will have the right to vote and to check the new financing application.
- Governance benefits: the right to vote, the benefit of voting, and the benefit of staking mining
- Financing distribution: after successful financing, 2% of the finance will be distributed to pledged users.

Talent scout :

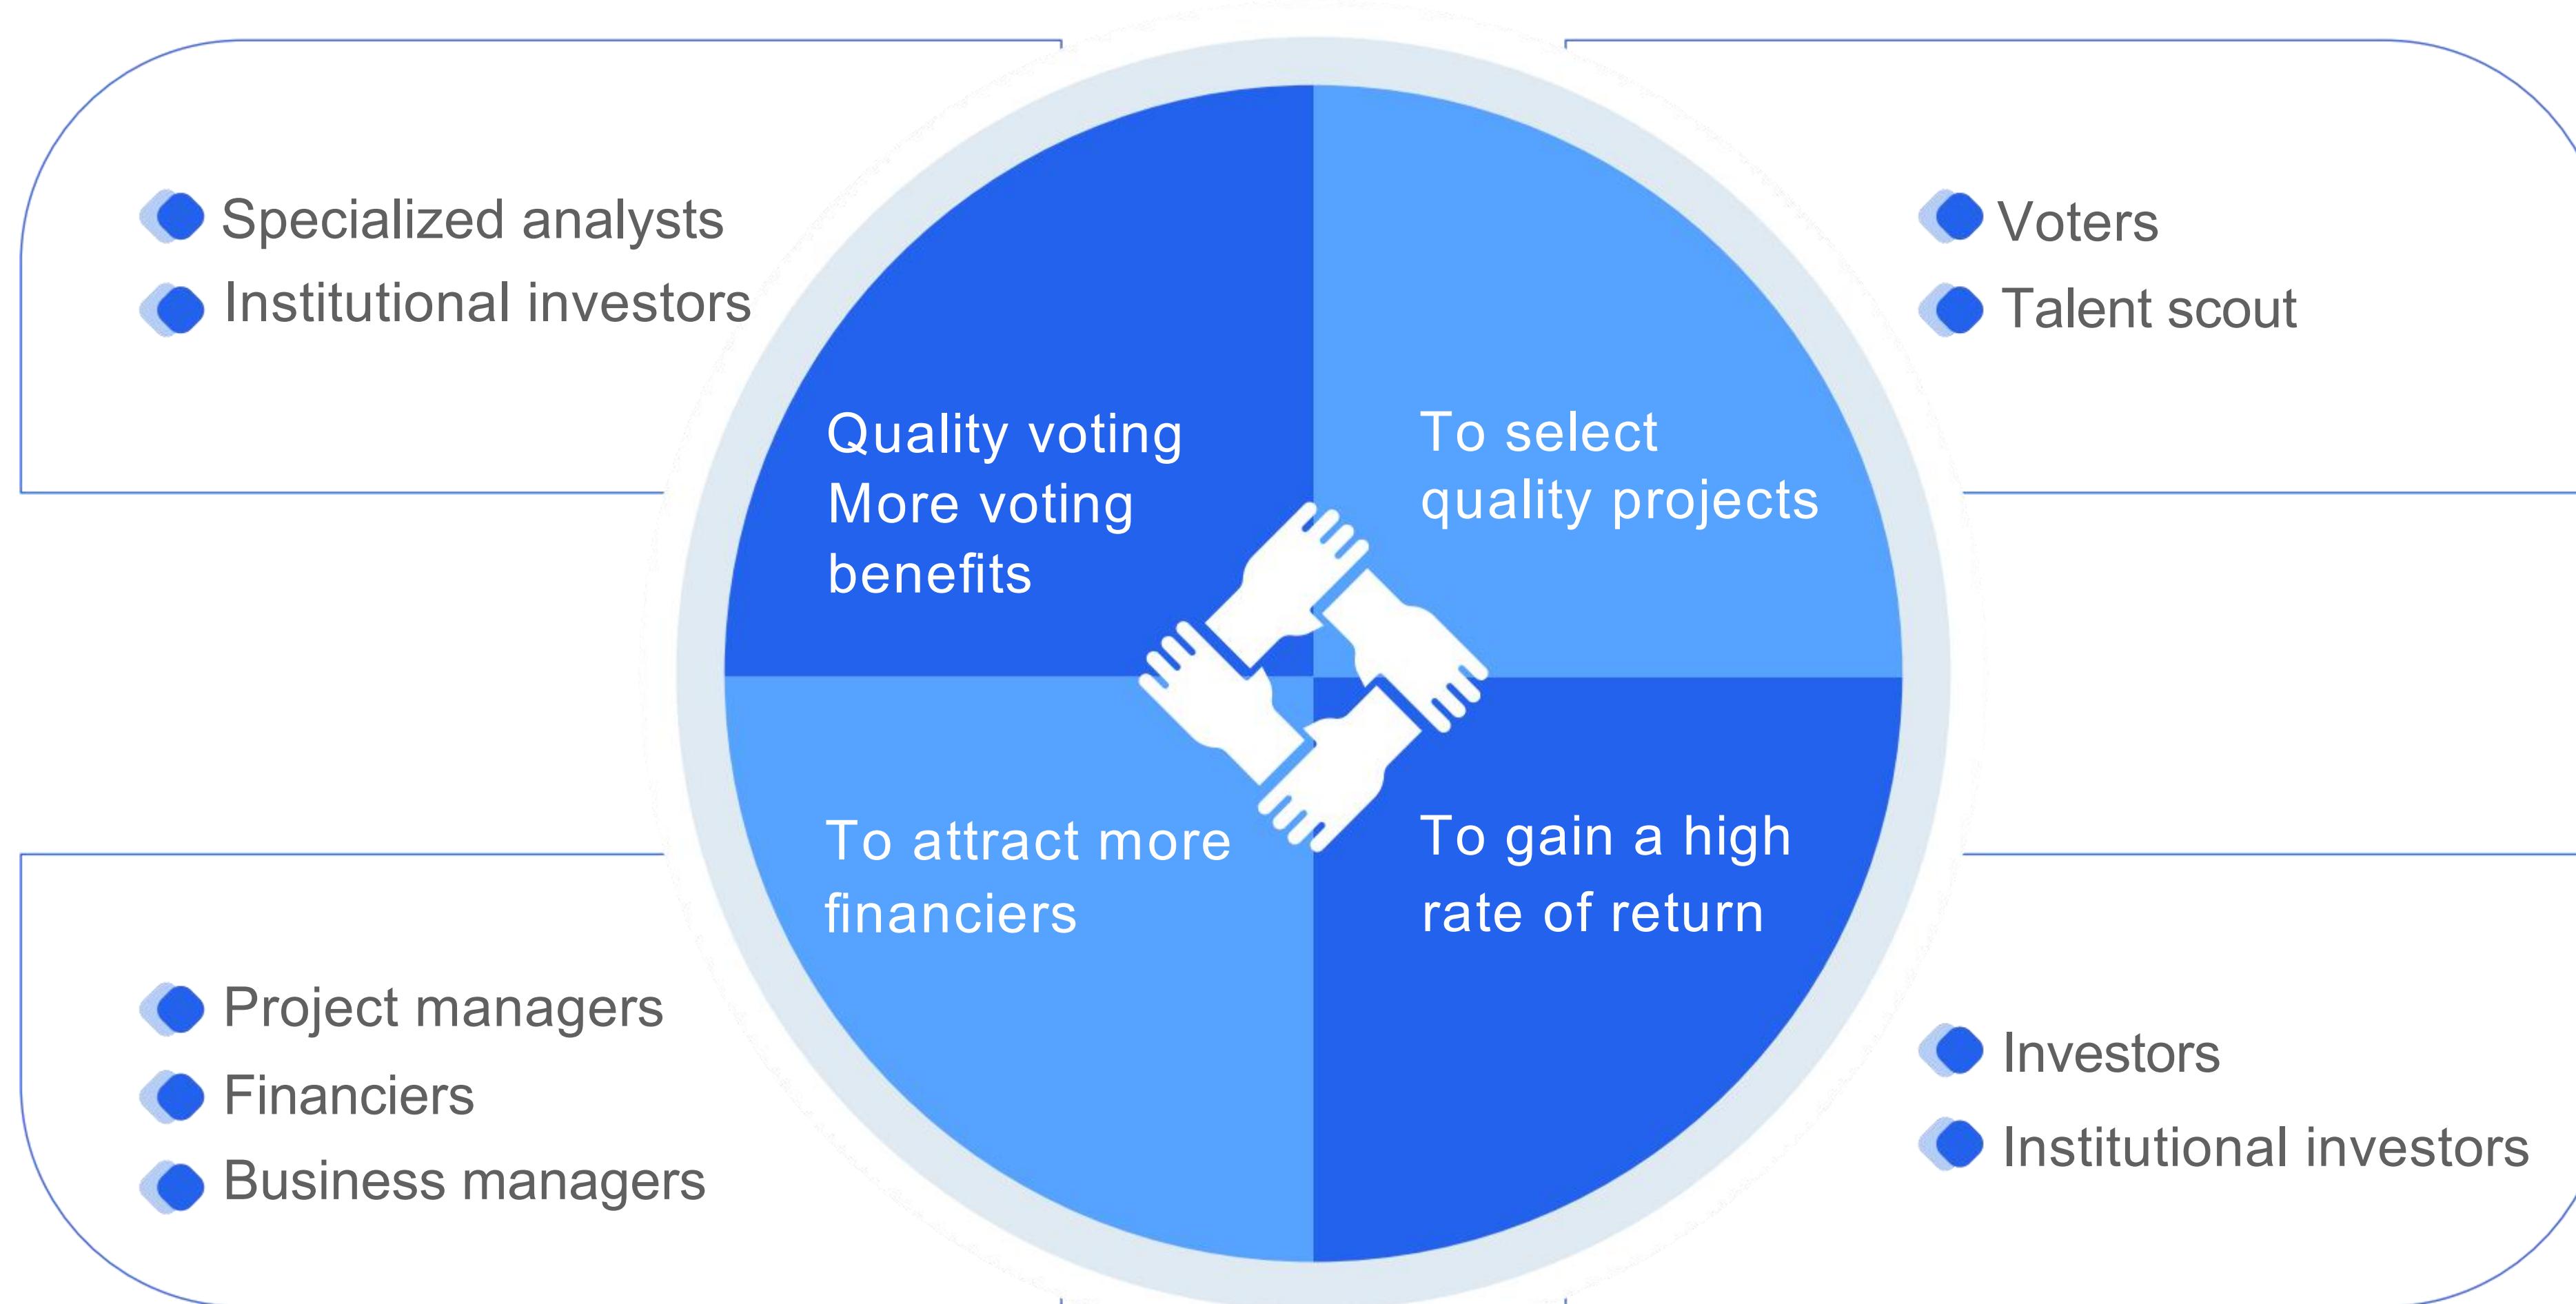

- Threshold: those who are able to investigate and research with the spirit of sharing may be referees.
- Responsibilities: to find quality projects that need finance at the early stage and to apply for investment in the platform
- Benefits: recommendation reward & 1% of the finance

Business managers:

- Threshold: those who are able to negotiate with projects may be business managers.
- Responsibilities: to search for and contact project managers with the need of financing
- Benefit: 1% of the finance

veDAO community with shared benefits

veDAO's Potential to Grow Spatially

More Users

4

veDao will attract more project managers, investors, and community users.

Governance Benefits

2

Voting benefits and a mechanism concerning rewards and disciplinary sanctions will attract more specialized analysts and investment agencies.

Low Threshold

1

A low threshold and a fair mechanism will attract a constant stream of project managers and community users.

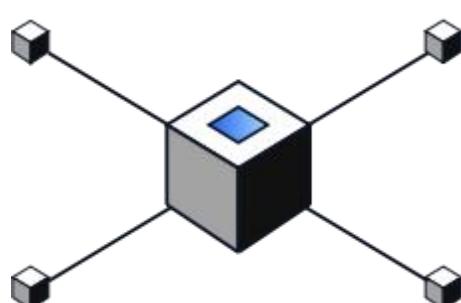

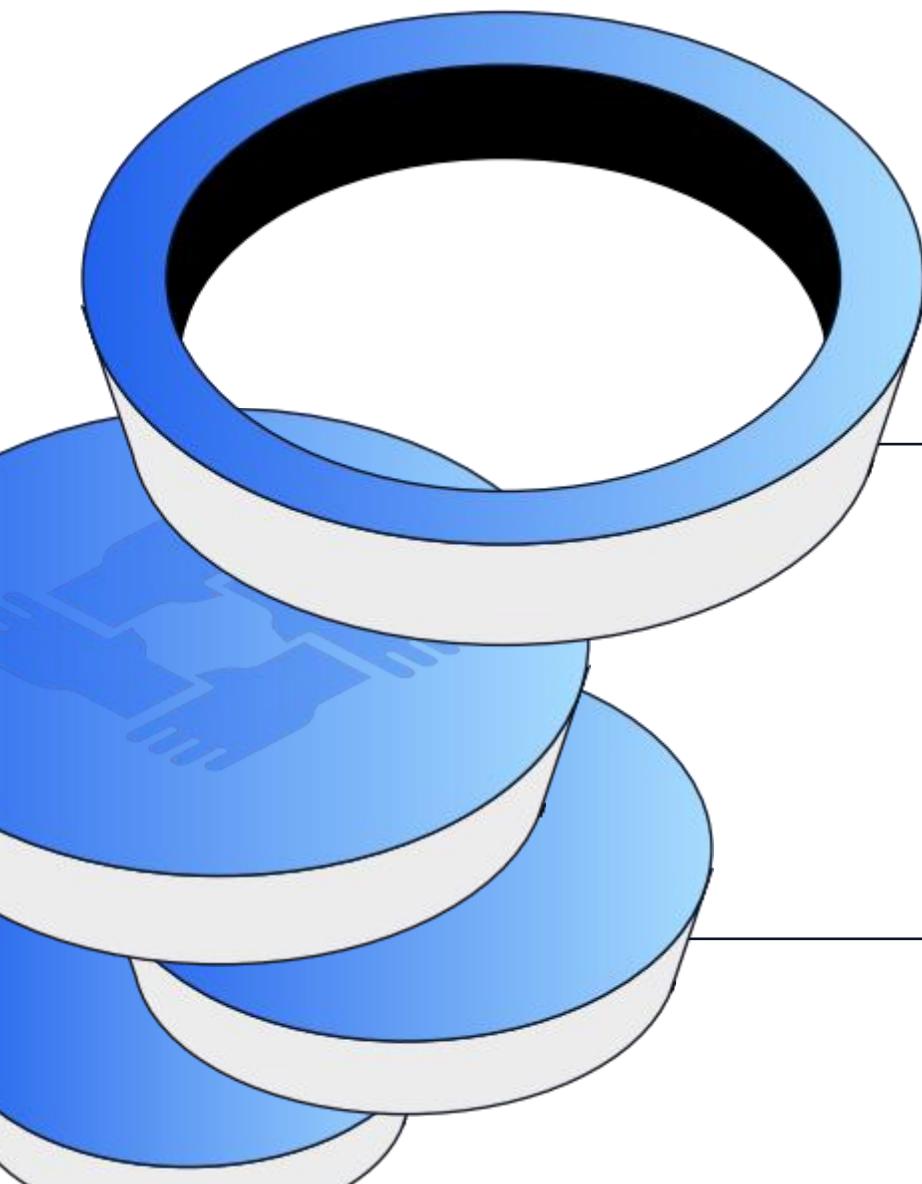

Increased Estimated Value

5

The increased estimated value of the platform mirrors the value of veDAO.

Dividends Distribution

Quality projects will be selected and obtain finance, with investors and DAO members gaining dividends.

03

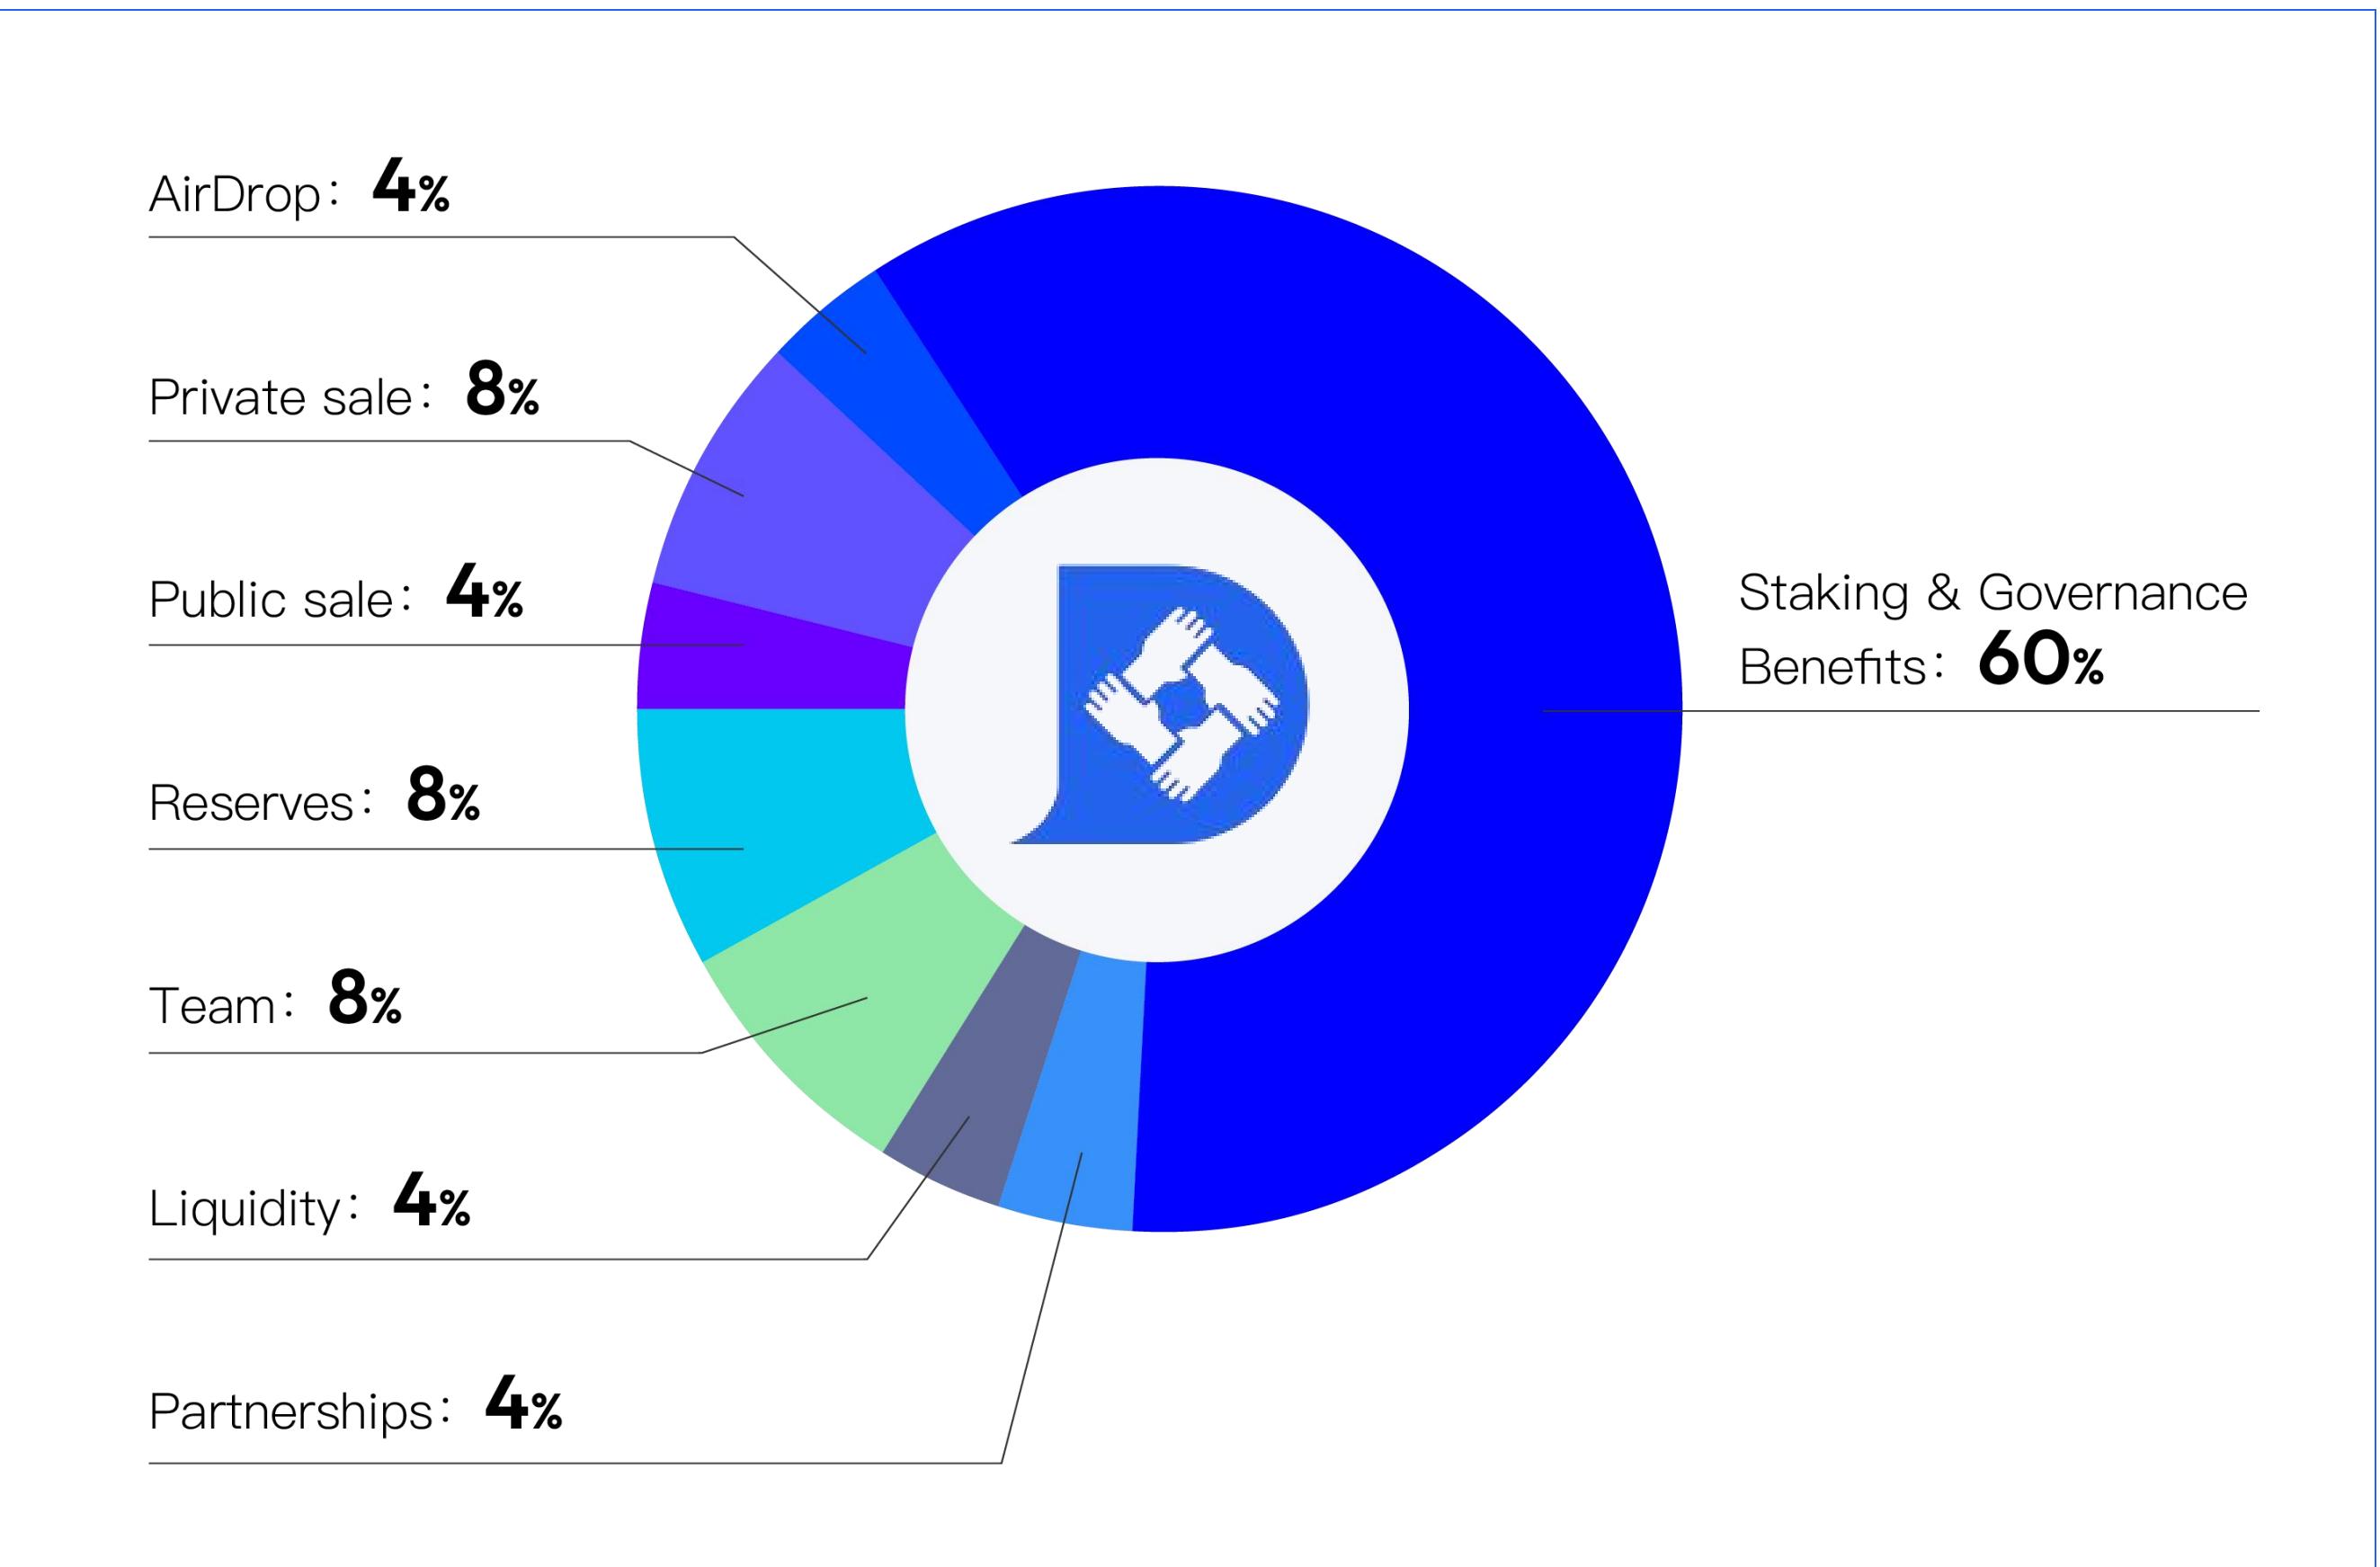

TokenDescription

Token Instructions

veDAO will distribute 1 billion tokens named DAO

Itemized Account	Share	Number of DAO	Cycle for Distribution
AirDrop	4%	40,000,000	810 days
Private sale	8%	80,000,000	810~900 days
Public sale	4%	40,000,000	360 days
Staking & Governance Benefits	60%	600,000,000	Halved release
Liquidity	4%	40,000,000	immediately
Partnerships	4%	40,000,000	900 days
Reserves	8%	80,000,000	930 days
Team	8%	80,000,000	930 days
Total	100%	1,000,000,000	/

Application of DAO

Trading & Pledging

DAO is the tradable and liquid token of the platform, while pledging will get staking benefits.

Applying for Finance

DAO Applying for finance entails pledged DAO tokens, and a failed application will destroy some tokens.

Becoming a Voter

After staking DAO, one will become a voter, participating in governance and gaining benefits.

Repurchasing & Destroying

10% finance of every project will be used for purchasing DAO tokens, of which 3% is destroyed and 3% is stored. Besides, pledging users will be rewarded 2%, and business managers and referees, 1% for each side.

Price Estimation of DAO

- DAO original price: 0.02 USDT
- Biggest supplying market value: \$20,000,000
- Originally distributing market value: roughly \$0.8 million

Token Incentives

- To assume that 10 projects have gained finance in 1 month, \$0.2 million for each. And \$0.2 million will be used for repurchasing DAO tokens every month.
- Project managers, pledging users, and voting users will have a high demand for tokens, and they will focus on DAO.

Referring to similar competitors, there is enormous room for growth in the market value of DAO

Tokens	MktCap	Gap Between Rival Products and DAO
(RAY) RAYDIUM	\$46.56 M	58.2 times
(DAO) DAO MAKER	\$223.38 M	279.2 times
(CULT) CULT.DAO	\$29.7 M	37.1 times
(POLS) POLKASTARTER	\$42.1 M	52.6 times
(SFUND) SEEDIFY.FUND	\$52.34 M	65.4 times
(DAO) veDAO	\$0.8 M	/

Voter Parliamentarism

- Users with veDAO may entrust their right to vote to agents, aka Damoclesers, who are able to vote on behalf of voters.
- The Governance Committee is formed by Damoclesers.

Project Scoring System

veDAO will roll out a scoring system for decentralized projects, thus empowering risk control.

Core Strengths

- The Governance Committee, formed by Damoclesers, will grade the project from multiple perspectives.
- The project scoring system is the core of veDAO's brainstorming, ensuring neutrality, objectiveness, and specialization.
- The results will provide suggestions for users.
- Any individual and agency may pay to apply for the grading of one certain project.
- The benefits of the system will be distributed to the Committee.

Roadmap

Roadmap in 2022

Q2 2022

- To launch the project
- To complete the white paper
- To meet the technological needs
- Official website release
- Publish community NFT badge

Q4 2022

- Complete the airdrop module development
- Scout officially launched

Q3 2022

- Complete the talent scout module development
- Complete DAO module development

Q1 2023

- Publish Twitter social graph
- Publish Alpha project ranking
- UI optimization

Roadmap in 2023

Q2 2023

- Publish point task system
- Complete the development of IDO module
- Start private sale

Q3 2023

- Token Airdrop and Listing
- Initiate a DAO-led fundraising process
- Complete the development of INO module
- Completing the project scoring system

05

Cooperative Mode

Join Us

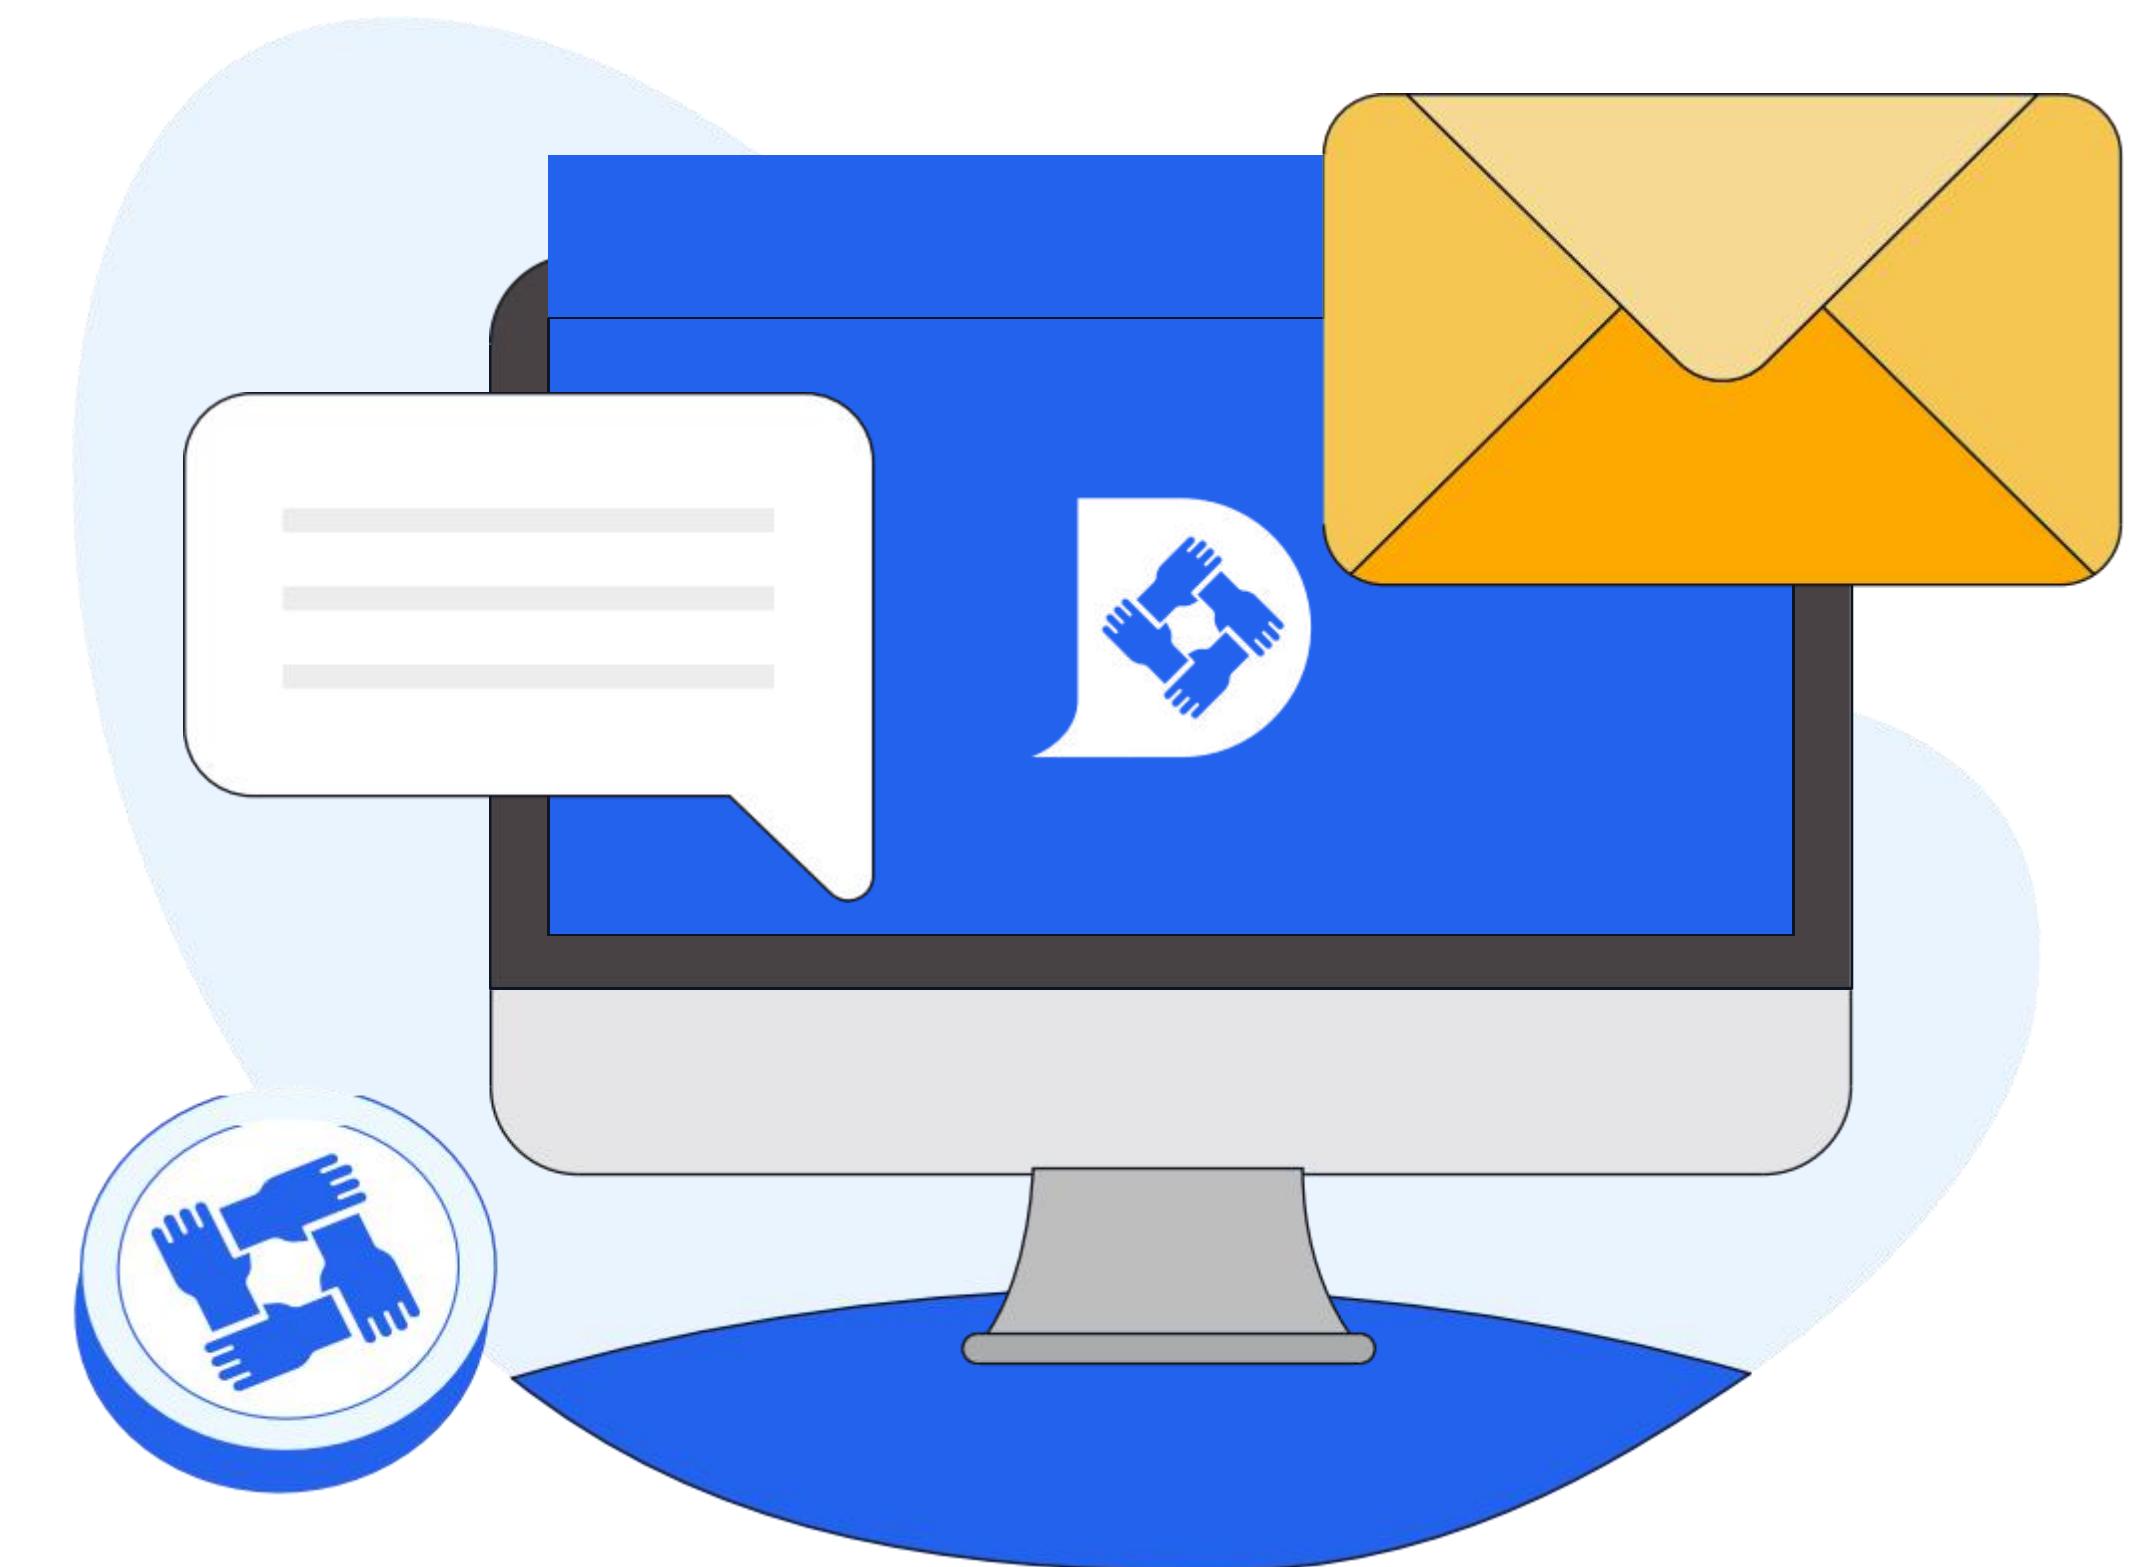

We desperately need the help of institutional investors, specialized analysts, and KOL.

veDAO will provide you with:

- staking rewards and voting governance benefits
- partner-exclusive recommendation page
- be part of the league of investors and the Governance Committee and obtain the special status of NFT
- NFT-exclusive benefits
- veDAO ecological resources

Besides, you will get ecology rewards like:

- DAO token and staking benefits
- veDAO for voting and voting benefits
- USDT rewards after every voting governance

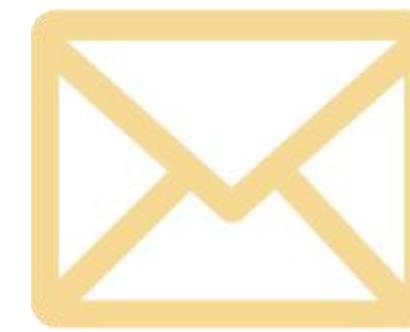

Thanks!
